

Plasan Sasa Ltd.

► Plasan Sasa is a worldwide leader in the armoring of defense and security forces. For more than 20 years, the company has been developing and manufacturing battlefield-proven solutions for many applications, including vehicles of all kinds, personal protection, air and naval platforms.

With its extensive experience in dealing with low-intensity combat against urban-based terrorism, the company is not only a preferred supplier for the Israel Defense Forces (IDF); it is an approved supplier for ministries of defense around the world.

Plasan Sasa's production facilities are expert in creating adaptable, modular solutions that combine unique system engineering with lightweight composite materials. Within its own state-of-the-art facilities, Plasan Sasa is capable of manufacturing protective solutions using every technology known in the field, keeping a step ahead. The wide range of expertise gives the company full flexibility in meeting the challenges specific to combatants in the ever-changing modern arena of warfare.
