Members of Shandong Delegation Visiting Israel and Corporate Profiles of the Enterprises

I. Shandong Government Delegation
1. Guo Shuqing  Governor of Shandong Province
2. She Chunming  Director-General of Department of Shandong Province
3. Xue Qingguo  Director-General of Shandong Foreign Affairs Office
4. Xu Maobo  Senior Deputy Director-General of Department of Science and Technology of Shandong Province

II. Shandong Business Delegation
1. Ji Binchang  Chairman of Shandong Luxin Investment Holdings Group
2. Sun Liang  Chairman of Shandong Hi-Speed Group Co., Ltd.
3. Bao Jianying  Chairman of Shandong Ocean Investment Co., Ltd.
4. Zhu Yonghu  General Manager of Overseas Sales of Zhongtong Bus Holding Co., Ltd.
5. Zhang Zhigang  President of JIER Machine-tool Group Co., Ltd.
6. Zheng Minghui  Chairman of Qingdao Port (Group) Co., Ltd.
7. Xu Naishan  Project Manager of Qingdao Port (Group) Co., Ltd.
8. Wang Hong  
   President of Shandong State-owned Assets Investment Holding Co., Ltd.

9. Hu Hanyang  
   CEO of Yellow River Delta Industrial Investment Fund Management Co., Ltd

10. Yu Bing  
    President of Shandong Offshore Equipment Co., Ltd.

11. Fang Yong  
    President of Shandong Haihua Group Co., Ltd

12. Huang Shuling  
    Chairwoman of Joyoung Group

13. Wan Lianbu  
    Chairman of Kingenta Ecological Engineering Group Co., Ltd.

14. Zhai Jidong  
    Executive vice president of Kingenta Ecological Engineering Group Co., Ltd.

15. Chen Hongkun  
    Vice president and Deputy Chairman of Kingenta Ecological Engineering Group Co., Ltd.

16. Ding Guiqiang  
    Director of president office of Kingenta Ecological Engineering Group Co., Ltd.

17. Liu Liangchen  
    President of Shandong Dachi Electric Co., Ltd

18. Wu Qi  
    Chairman of Qingdao TLV Investment Co.

19. Shi Fenglei  
    Chairman of ERGO China Life Insurance Co., Ltd

20. Ma Xiaowei  
    Vice President of Qingdao Huatong State-owned Capital Operation Co., Ltd.

21. Wang Chunlin  
    President of Weifang Sino-Israel Agriculture Co., Ltd

22. Zhao Shiyu  
    President of the Administrative Committee of (Qingdao) Sino-German Eco Park
23. Zhang Hengdao Director of the Administrative Committee of Weifang Binhai Economic and Technological Area

Remarks: Above are confirmed delegates. We will offer you the updating information by Email.
Corporate Profiles of the Enterprises

山东省商务厅
Department of Commerce of Shandong Province

Department of Commerce of Shandong Province is a governmental agency in charge of domestic trade, foreign trade, foreign direct investment, overseas investment, economic and technological cooperation, and economic zones.

山东省科技厅
Department of Science and Technology of Shandong Province

Department of Science and Technology of Shandong Province is a governmental agency in charge of the industrialization of high and new technology, the implementation of plans like provincial key laboratories and research centers of engineering technology, and carrying out international and domestic technology cooperation and communication.

山东省鲁信投资控股集团
Shandong Luxin Investment Holdings Group
Shandong Luxin Investment Holdings Group was established in 1987 as an important financing, investment and asset management platform of Shandong Province. Main business includes trust business, securities investment funds, industrial investment funds, venture capital, petty loans, financial leasing, guarantee business, pawn business, infrastructure investment, culture industry investment and tourism real estate investment. At the end of 2015, Luxin Group had self-owned and entrusted assets of $45.3 billion.

**Areas of Interest:** Participate in the promotion of Shandong Projects of Israeli incubators.

山东高速集团

**Shandong Hi-Speed Group Co., Ltd.**

Shandong Hi-Speed Group Co., Ltd. (SDHS) is mainly engaged in investment, construction, operation, and management of highways, expressways, bridges, railways, harbors, shipping, airports and logistics, and also sets foot in financing, construction, real estate, IT, building materials and other associated businesses based on the main business chain. By far, the registered capital of SDHS has reached RMB 20 billion Yuan, annual operation revenue of RMB 50 billion Yuan, total assets of RMB 371 billion Yuan. Its asset value tops all Shandong province and all Chinese enterprises of the same industry. It has ranked among “China Top 500 Companies” for 9 consecutive years.
Shandong Hi-speed Group runs its business across 22 provinces in China and 106 foreign countries and regions with total investment of 100 billion RMB. So far, it has 2800 kilometers expressway and 586 kilometers railway under its operation, 1089 kilometers expressway and 743 kilometers railway under construction. It has represented Shandong Provincial Government to invest and construct the Shandong Section of Beijing-Shanghai hi-speed railway and undertake the responsibility of construct and reconstruct 3800 kilometers hi-speed railway. It ranks No.1 in National Highway Maintenance Inspection consecutively and Shandong Hi-speed Jiaozhou Bay Bridge, which is invested, constructed, operated and managed by Shandong Hi-speed Group, is the longest sea-crossing bridge in the world.

Areas of Interest: expanding cooperation in infrastructure, house construction, technology import and enterprise merger.

山东海洋投资有限公司

Shandong Ocean Investment Co., Ltd.

Shandong Ocean Investment Co., Ltd. is a large company incorporated with the approval of Shandong Provincial People's Government and supervised by Shandong State-owned Assets Supervision and Administration Commission. It serves as a core investment and financing platform, marine technology incubation and commercialization platform, and marine strategic emerging industry integration platform for implementing the strategy of Shandong Peninsula Blue Economic Zone. It is the first state-owned investment company
focused on marine economy in China with registered capital of 3.2 billion RMB. Its business covers investment, operation and management of such industries as marine transportation and logistics, marine equipment manufacturing, ocean engineering construction, marine energy and mineral resources, marine bioengineering, marine ecology protection, marine culture and tourism.

**Areas of Interest:** Participate in the promotion of Shandong Projects of Israeli incubators.

**Zhongtong Bus Holding Co.,Ltd**

Zhongtong Bus Holding Co.,Ltd is a state controlling company who engaged in bus, bus chassis, bus components, with famous brand product and famous trademark in China, with Asia brand top 500, is national high-tech enterprise, own national-level laboratory, a certified corporate Technology Center and a postdoctoral workstation.

Zhongtong is established in 1958 with name of Shandong Liaocheng Bus Factory at that time, start to manufacture bus in 1971, become a listed company in 2000 in Shenzhen Stock Exchange, is one of the first listed companies in China’s bus industry. The Company has total assets of RMB 8.18 billion Yuan, a net asset value of RMB 2.28 billion Yuan, with total staff more than 4000. The company has annual production capacity of 30000 middle and high grade buses, ranking third in the domestic bus industry in aspect of market share, New energy bus ranks second in aspect of market share, export bus market share ranks fourth.
Areas of Interest: Promote the bus products to enter the market in Israel.

济南二机床集团有限公司

JIER Machine-Tool Group Co., Ltd

Established in 1937, JIER Machine-Tool Group Co., Ltd is one of the largest manufacturer of heavy duty metal forming and metal cutting machinery in the world. With our 1.2 million square meters of manufacturing facilities and our strong R&D capabilities, manufacturing and service capabilities, we have supplied hundreds of automated high speed tandem line globally. JIER is committed to providing our first class and customized equipment and turnkey service for different customers all of the world.

Areas of interest: Cooperate with Israeli enterprises in the field of casting machine equipment.

青岛港

Port of Qingdao

Established in 1892, Port of Qingdao is the world’s 7th largest port. The
port maintains trade relations with over 700 ports across more than 180 countries and regions worldwide. On 6 June, 2014, Qingdao Port International Co., Ltd. was publicly listed in Hong Kong Stock Exchange. Port of Qingdao consists of 4 areas: Qingdao Dagang port area, Huangdao oil port area, Qianwan port area, and Dongjiakou port area. Port of Qingdao has the world’s highest productivity for container handling and iron ore discharging.

Areas of interest: Qingdao Port is now cooperating with ZIM Integrated Shipping Services LTD of Israel in harbor handling service. During this visit, Qingdao Port will also visit ZIM, promoting cooperation in increasing shipping lines subordinate to Qingdao Port.

山东省国有资产投资控股有限公司

Shandong State-owned Assets Investment Holdings Co., Ltd.

Shandong State-owned Assets Investment Holdings Co., Ltd. (hereinafter referred to as “the company”) is a large-scale state-owned investment holding company funded by State-owned Assets Supervision and Administration Commission of Shandong Province Government (SASAC of Shandong). It has established more than 20 years with registered capital of RMB 4.5 billion. The company mainly engaged in investment, financing, capital operation and assets management. It has abundant capital strength, high-quality professional team and extensive market resources. After years of exploration and practice, the company has established normative governance structure, scientific and efficient decision-making mechanism and perfect risk
management system. And also it has accumulated rich experience from project development, demonstration decision, resource integration, investment management and risk control. Market competitiveness and economic benefit are rising steadily. The company has more than 20 subsidiaries which investment domains involve banking, insurance, asset management, information technology, cultural industry, ocean fishery, international trade, medicine and other industries.

Areas of Interest: Participate in the promotion of Shandong Projects of Israeli incubators.

黄河三角洲基金产业投资基金管理有限公司

Yellow River Delta Industrial Investment Fund Management Co., Ltd.

In line with the development of the YRD as a national priority, Yellow River Delta Industrial Investment Fund Management Co., Ltd. was approved and incorporated in July 2011 by National Development and Reform Commission (NDRC). The company is committed to conduct strategic industrial investments and to provide professional asset management services. Currently, the company is managing 9 funds, total assets valued RMB 40 billion.

Areas of Interest: Participate in the promotion of Shandong Projects of Israeli incubators.
Shandong offshore Equipment Co., Ltd.

Shandong offshore Equipment Co., Ltd. is a joint-stock enterprise initiated and established by Shandong Ocean Investment Company (“SOIC”) and Shandong Shipping Corporation. Was incorporated and registered in Qingdao City, Shandong Province, PRC. Focuses on offshore drilling, offshore engineering equipment and operations, R&D and manufacturing. Has outstanding professionals and experts specialized in the offshore industry.

Dr. Yuhui Sun, Chairman of BOD and now Chairman of Northern Offshore Ltd, who has lived in Houston, Texas for over 25 years is an industry recognized leader from the National 1000-Experts-Plan Project, SDOE has constructed an efficient international operation & management. Takes new-build offshore deep water jack-up drilling rigs as its starting point, SDOE aims to expand its business domain into production platforms, specialty ships, offshore support vessels and other marine engineering equipment manufacturing. SDOE’s overall objective is to create an integrated marine engineering equipment conglomerate specialized in operations, R&D, manufacturing and marketing.

Areas of Interest: Discussing possibilities of cooperation in the R&D and manufacturing of ocean engineering equipment.

Shandong Haihua Group Co., LTD
Shandong Haihua Group, located in Weifang Binhai Economic and Technological Development Zone, was founded in 1986. In September 2009, Haihua Group become a subsidiary company of China National Offshore Oil Corporation.

The total asset of Haihua Group totals RMB 12 billion yuan and they now have 12000 employees. The business sectors of the Group cover the manufacturing and sales of chemical products and materials like crude salt and sodium carbonate. Haihua now has one listing company named Shandong Haihua Co., Ltd. and more than 30 subsidiary or branch companies in petrochemical and thermoelectricity. The product output of 7 products including sodium carbonate, crude salt, bromine calcium chloride rank in the top nationwide. Haihua Group is an important production and export base of ocean chemical engineering products.

**Cooperation with Israel**: Haihua have cooperated with ICL in founding Sino-Brom Compounds Co., Ltd to produce deep processing products of bromine. During this visit, Haihua plans to have a survey about salt chemical engineering technology of ICL, expanding cooperation with ICL and considering bringing in technologies like sea water desalination and deep processing of salt chemical engineering.

九阳集团

Joyoung Co., Ltd.

Joyoung Co., Ltd. was established in 1994 & successfully listed in
Shenzhen Stock Exchange on May 28th, 2008. It is specialized in the R&D, manufacture & sale of kitchen electric appliances. Now Joyoung has more than 3,000 employees. It has multiple manufacture and R&D base in Jinan and Hangzhou with annual production capacity reaching 30 million.

Joyoung has 8 product lines containing over 200 models, including soymilk maker, blender, juice extractor, electric kettle, rice cooker, slow cooker, induction cooker, etc. Joyoung, the pioneer & leader of soymilk maker, the pioneer of juice extractor & blender and having top 3 share of other electric appliance market in China, has served over 30 provinces, cities and municipalities nationwide and more than 20 other countries & regions such as Japan, USA, Singapore, etc. Now Joyoung has become a well-known small household electrical appliance enterprise for healthy diet. By the end of 2016, sales revenue of Joyoung exceeded 1.1 billion USD.

**Cooperation intention**: Seeking possibility of becoming OEM of products like noodle maker soup machine and electric kettle for potential customers.

金正大生态工程集团股份有限公司

Kingenta Ecological Engineering Group Co., Ltd

Founded in 1998, Kingenta Ecological Engineering Group Co., Ltd mainly produces compound fertilizer, slow/controlled-release (SCRF), water soluble (WSF), and other new-type fertilizers. Kingenta is the world's largest slow/controlled-release production base with a total asset of RMB 11 billion and annual capacity of 7 MMT. In 2010, Kingenta was listed in Shenzhen
Stock Exchange. In 2015, Kingenta’s sales revenue reached RMB 18 billion and total pre-tax profit reached RMB 1.45 billion. Kingenta has established branches in America, Norway, Israel, Germany, Vietnam, Hong Kong, etc.

**Areas of interest:** Kingenta has established R&D center in Israel on November, 2014 and have offices, laboratories, and test base of about 3000 square kilometers in Israel. Kingenta are interested in carrying out cooperation with universities and scientific research institutions. They also want to cooperate with advanced investment funds in agriculture technology to invest in new products, technology of Israel and participate in the R&D and industrialization of the technology.

— 14 —
Patent Star Enterprise”, “State-grade Enterprise honoring contracts and standing by reputation” etc.

Dachi’s dominant products include 1000kV/1500MVA and lower oil immersed power transformer, Type of S11-S13 transformer of energy conservation. Type of SH15 transformer of amorphous core. 35kV and lower dry-type power transformer, Compact energy conservation substation, enclosed busbar and GIS combined type switchgear etc. Dachi products with an annual production capacity of 80000MVA. The company introduced the most advanced equipment from Germany, Finland, USD etc. Such as GEORG Horizontal cut line, Hovercraft, Epoxy vacuum pouring cans and Plasma cutting machine all of which are equipments with high precision and high intelligent. Our company has a strong research and development capabilities and strong pool of talent. We have established a platform for innovation and research separately with Shenyang Transformer Research Institute, State Grid Electric Power Research Institute, Wuhan college and other research institutes.

Areas of Interest: Cooperation in the projects of smart substation, converter transformer, electric reactor and other products.

青岛柏科创业投资有限公司

Qingdao TLV Investment Co.

Qingdao TLV is a sino-foreign venture capital company. It introduces international technologies to China and focuses on incubating and investing in them. It services range from registering company, providing free office
space, outsourcing financial and legal services, providing administrative services, helping find business partners, to recruiting team (including CEO and engineers), until help the company realize the first sales. It will also invest directly in that company or help find other investors.

**Areas of Interest:** Seeking appropriate Israeli enterprises with advance technology and promote their cooperation with Chinese enterprises. They can also provide financial support for the incubation of the company and its entry into Chinese market.

德华安顾人寿保险有限公司

**ERGO China Life Insurance Co., Ltd**

ERGO China Life Insurance Co., Ltd is a national life insurer jointly established by Shandong State-owned Assets Investment Holding Co., Ltd, ERGO Group and ERGO Life Insurance Company. It was established on July 22th 2013 at the approval of China Insurance Regulatory Commission, its headquarters is located in Jinan and the initial registered capital is CNY600 million. ERGO China Life Insurance Co., Ltd is the first national life insurer headquartered in Shandong province.

**Areas of Interest:** Doing a survey of the insurance market in Israel.
青岛华通国有资本运营（集团）有限责任公司

Qingdao Huatong State-owned Capital Operation (Group) Co., Ltd.

Investment group directly under municipal government, The businesses scope includes: Investment and financing of government major projects; investment and operation of advanced manufacturing, modern services and high-tech industrial projects. The affiliated Qingdao Huatong Science and Industry Investment Company is dedicated to build a multi-national competitive high-end equipment manufacturing group.

Areas of interest: Getting in touch with experts from mechanized equipment enterprises and the industries of casting and machinery.

潍坊华以农业科技有限公司

Weifang Sino-Israel Agriculture Co., Ltd

Weifang Sino-Israel Agriculture Co., Ltd was founded in November, 2013. It was co-founded by a former diplomatic office of China in Israel Guo Lei and the chairman of Weifang Sino-Israel Agriculture Mr.Wang Chunlin. Its main business covers the plantation of vegetables and fruit, artificial inland fishery culture, agricultural sightseeing, agricultural technology research and the export and import of goods.

The company has brought in advanced agricultural technologies from
Israel and combine them with other technologies in and abroad, forming an industry chain of high technology and high added value planting and breeding industry. It has also built an agricultural sightseeing projects and built a demonstration park of ecological agriculture. In 2013, the project of Israel automatic water planting factory went into construction and the factory began operation in 2015. In March, 2016, the project of agriculture industrial park, which transplants the water planting technology to common green house, went under construction.

**Areas of interest:** Bring more advanced agricultural technology technology to China and incubate, demonstrate and promote. Discussing about the project of building a technological incubator.

青岛中德生态园

_Sino-German Ecopark_

Sino-German Ecopark is a strategic cooperation project between the Chinese and German government. In July, 2010, the Ministry of Commerce of China and German Federal Ministry of Economics and Technology have signed the Memorandum of Understanding on Joint Support to the Establishment of the Sino-German Ecopark, and pledged to establish and develop Sino-German Ecopark in Qingdao Economic and Technological Development Zone. In December 6th, 2011, Sino-German Ecopark held the foundation ceremony; in July, 2013, construction of Sino-German Ecopark has started.

The planned area of Sino-German Ecopark covers 11.6 square kilometers, included in the Development Plan for a Blue Economic Zone in
Shangdong Peninsula approved by the State Council. It is also in the first list of “Comprehensive Standardization Demonstrative Zone” released by Standardization Administration of the People’s Republic of China. Based on the eco-development concepts of establishing ecological standards, developing low-carbon industries, promoting the development of eco-city, Sino-German Ecopark focus on high-end manufacturing industries with support from modern service industries such as ecological and business residence, commerce and finance. It will be established into an international cooperation park with comprehensive functions, low carbon ecological features, favorable conditions for living, business and sustainable development.

**Areas of Interest** : Attracting Israeli enterprises with advanced ecological technology to invest and develop in the ecopark.

潍坊滨海经济技术开发区

**Weifang Binhai Economic & Technological Development Area**

Established in August 1995, Weifang Binhai Economic & Technological Development Area (BEDA) is a national economic and technological development area approved by the State Council. Covering a land area of 677 square kilometers and the sea area of 510 square kilometers, BEDA has been continuously accredited as National Innovation Base for Rejuvenating Trade through Science and Technology, National Demonstration Eco-Industry Park, National Vocational Education Innovation Zone, National
Demonstration Zone Invigorating the Sea by Science and Technology and Scientific Development Park and Circular Economy Demonstration Zone in Shandong Province.

Projects concerned for this visit

1. Sino-Israel Eco-chemical Industrial Park

Based on the existing Sino-Israel Bromide Project, with the planned area of 1,000 mus extended to the west and north, the Sino-Israel Eco-chemical Industrial Park would be developed into two phases. Covering an area of 400 Mu, the first phase would be devoted to the development of Marine Chemical Technology Research Institution, Bromine and magnesium series flame retardant products and new type compound fertilizer production line. Dedicated to the researching and developing of refinery chemical products, the second phase would cover an area of 600 Mu.

The purpose of this visit is to advance the construction of Sino-Israel Eco-chemical Industrial Park, especially the investment and building of the Magnesium Oxide project.

2. Sino-Israel Shandong Marine Industry Techniques Research Institution

Weifang Binhai Economic & Technological Development Area (BEDA) is the national largest chemical products producing base. The ICL Group has the world first class marine chemical products producing technologies. In order to upgrading the technology innovation capacity and accelerating the products transformation, BEDA intends to build a new Sino-Israel Shandong Marine Industry Techniques Research Institution through the cooperation of Shandong Ocean Chemical Industry Scientific Research Institute and ICL Group. Through the introducing of experts from the ICL Research and Development Center, an international science and technology cooperation — 20 —
platform and high-tech industrial incubating and transforming base would be established. There would be altogether five main functions for the new research institution, namely eco-marine chemical incubator, industry transforming base, standardized marine chemical industry innovation platform, public technique service center and marine chemical talents training base. This research institution mainly dedicated to the research and spreading of the comprehensive utilization of brine water, the technology and products developing of flame retardant technology of polymer materials, the treatment techniques of waste water and gas and the developing.

The purpose of this visit is to advance the construction of Sino-Israel Shandong Marine Industry Techniques Research Institution, which would be used as a base for the technology transfer and transformation of scientific and technological achievements from the ICL Group.

3. Weifang Binhai Seawater Desalination Project

Due to the shortage of underground fresh water, the supplying of drinking water relies on Xiashan Reservoir. As the fast development of economy and society and the sharply fall down of rainfall in the past years, BEDA faces increasing water supplying pressure. So, we will pay a special visit to IDE to negotiate on the seawater desalination project. As we all know, the Israel IDE which was established in 1965 is the leading company in the area of seawater desalination all over the world, especially in the field of condensation and purification of industrial waste water and the research and development of ice machine.

The purpose of this visit is to drive on the investment and construction of the 500,000 Tons Seawater Desalination Project.
