Verint® Systems Ltd is a leading provider of Actionable Intelligence® solutions that help governments protect people and property and neutralize terror and crime. The Verint Security Intelligence portfolio generates Actionable Intelligence through the interception, monitoring and analysis of voice, video, and unstructured text. This enables security professionals and first responders to implement a more comprehensive, effective approach to gathering intelligence, managing security operations, optimizing emergency management, and improving safety and security.

Communications and Cyber Intelligence Solutions™

Built on decades of expertise in deployments around the globe, Verint Communications and Cyber Intelligence Solutions (CIS) efficiently collect, monitor, and analyze vast amounts of information from virtually any communication network or data source. Law enforcement, national security, intelligence, and government agencies can deploy these solutions to generate evidence and intelligence and promote more efficient and productive investigations.

The Verint CIS portfolio includes solutions for:

- **Communications Interception**
Verint RELIANT™ and VANTAGE® target and mass monitoring centers intercept, monitor, and analyze information across a wide range of communications networks.
- **Cyber Intelligence**
The Verint CYBERVISION™ solution portfolio protects national assets from ever-evolving cyber threats.
- **Mobile Location Tracking**
Verint RELIANT and VANTAGE provide real-time mobile location tracking, with analytics and workflows to support investigative activities.
- **Open Source Web Intelligence**
Verint FOCALINFO™ web intelligence solution collects and analyzes large volumes of Internet content, increasing the productivity and efficiency of investigations.
- **Tactical Communications Intelligence**
Verint ENGAGE™ portable communication enable interception and location tracking for tactical field operations.
- **Service Provider Compliance**
Verint STAR-GATE™ helps communications service providers comply with ETSI, CALEA, and other lawful interception regulations and standards.

Verint Video Intelligence Solutions

Verint Video Intelligence Solutions help enhancing the safety of people, property, and assets.
