

Directory Of Israel`s Marketing & Business Development Companies

Since the times of Phoenician ships and silk route caravans, Business Development Companies have acted as key players in the development of world trade. Today, Israel's export trading companies are particularly vital to the success of the country's export-oriented economy.

Business Development Companies represent Israeli manufacturers to overseas customers, providing a range of services from presenting products, identifying potential customers, and conducting negotiations to taking care of the logistics such as finding appropriate shipping and warehousing solutions and filling in export forms and customs declarations. In some cases they not only put together business deals but also organize their financing.

These advantages make them the most effective marketing channels for companies seeking to penetrate new markets as well as for first-time exporters.

Buying offices are also an important resource in the promotion of Israeli exports, identifying Israeli products for a roster of overseas customers including major American and European retail chains.

Israeli Marketing & Business Development Companies

Aviel Zilber

Office CN + 86 21 62326146

Fax CN + 86 21 62326149

MB CN + 86 13816603143

MB IS + 972 545 324080

Background

Aviel Zilber and Cristina CastilloCerde, are both Residents in China, having their life center there. Aviel and Cristina established a business that will perform Business Development services to Israeli, Spanish and other EU Companies. Those companies wish to enter the Chinese and Asia Pacific markets or enlarge their presence in them. The services shall be performed in China and other Asia Pacific countries.

The Business shall be performed through a Hong Kong company, established by the founders and held and managed by them in equal parts, rights and obligations -CBD. CBD opened a bank account in HK and all income will be paid by customers to same account

Points for discussion :

- 1 is CBD income received in HK subject to HK tax- if yes, what rate and how to minimize it.
- 2 is CBD income as above subject to tax in China. if yes, what rate and how to minimize it.
- 3 If we need to operate through a Company in China, what is the right way to do it
- 4 is CBD dividend payments to shareholders is subject to tax
- 5 what is the most efficient way – tax wise- of transferring money from CBD to shareholders/directors

Sector of Activity: consumer, safety, biotech, agriculture, food, chemical industries, electrical appliances, telecommunications, electro mechanics, medical equipment, etc.

No. of employees: 6

Established in (Year): 2005

Fields of Specialization: E-Commerce, Certification of products

Geographic Specialization: Argentina, Spanish speaking markets

A short company profile:

We activate in two main areas:

1 – E-Commerce: We seek companies interested in opening an additional international sales channel via internet. We manage the entire sale process, such as product listing, follow up, customer support, and product promotion via search engine optimization techniques.

We work with powerful sales platforms such as ebay, Amazon and Yahoo.

Geographically we specialize in Spain, Latin America and USA although we operate in additional global markets as well.

2 - We offer Product Certification Services, according to Argentinean regulations, to companies willing to export products to Argentina.

We have vast experience managing the entire certification process, in both technical and administrative aspects, for a large variety of products ranging from electrical equipment to toys. Our customer base includes leading companies in the national and international markets.

Geographic Specialization : India, the United States, China, Japan, Korea, Europe and Israel

A short company profile :FTK Technologies, founded in 2005, develops language software solutions for the Indian market. LooKeys, its flagship product, offers the first comprehensive 10-language data entry solution, overcoming the lack of Indian languages keyboards as a major barrier to computer and Internet usage in India.

LooKeys provides Indian languages speakers the option to use computer applications and services in their mother tongue, even though they do not feel comfortable with the English language . Based on patented prediction algorithms, this user-friendly, Indian languages word processor with virtual keyboard includes 3,000 different letters and combinations. LooKeys Pro, requiring a webcam, uses image processing algorithms to detect users' hand movements in real time, enabling data entry by simulated virtual hands. LooKeys was recently adopted by [Wipro](#), [HCL](#), [Educomp](#), [Sify](#) and [HP](#).

Title: CEO

E-mail address: blonder@gie.co.il

Tel : ++972 4 9525304

Mobile Phone:++972 523467327

Fields of Specialization: locating Investors, strategic partners, distributors.

Geographic Specialization all over the world

Main customers: Innovative companies only

A short company profile

Galilee Investment & Enterprise (GIE)

Galilee Investment & Enterprise (GIE) represents a wide variety of Israeli innovative Hi-tech enterprises, locating overseas contacts for investment, strategic alliances and marketing opportunities.

Many of the companies in GIE's portfolio have finished their R&D and patent registration and have recently entered the initial revenue stage.

The success of this stage depends on new capital and strategic partners, enabling the companies to develop and explore new markets.

Investment at this stage offers investors an excellent opportunity to harvest the fruits of a prolonged and costly prior investment in R&D at a reduced price and with fairly low risk.

GIE's affiliated industry experts provide a distinct professional insight in the appraisal of prospective ventures and investments in fields such as: communications, security, software, life sciences, medical devices, clean technology etc.

Galilee Investment & Enterprise is a fast-growing company that, in a very short period, has formed alliances in key business centers around the world.

will help to give a clearer understanding of www.gie.co.il A visit to GIE's web-site: GIE's integrated approach to promoting new ventures and an opportunity to view our unique company portfolio

GIE's compensation is primarily derived from success fees paid by the Israeli enterprises.

No. of employees:5

Established in (Year): 2006

Fields of Specialization: Japanese market penetration, business consulting (conduct, negotiations, do's & don'ts)

Geographic Specialization: Japan, Korea

Represents: New Asia Trading, HSTJ, Propia, Bruno Art Group, Sousei Co., etc.

Main customers in Europe:Not applicable

A short company profile (up to 100 words):

"Japan-Israel Consulting & Business Development" was established to broaden the awareness towards Israeli consumer products in the Japanese market.

Unlike the Israeli diamond, hi-tech and telecommunication industries, Israeli consumer products (low-tech) are far from being well known in Japan. Few companies – if any – are familiar with the same Israeli products that are so well-known in Europe and the USA for their innovation, uniqueness and high quality.

"**Japan-Israel Consulting & Business Development**" is responsible for the introduction of more than 10 Israeli manufacturers of consumer products from various industries such as food, cosmetics, interior, agriculture and building materials and is continuously targeting the promotion of Israeli consumer products in the Japanese market.

We are doing more then just "opening doors" for Israelis companies in the Far East. We are actually performing as your agent with close and local relationship to your customer.

We would like to offer as follow:

- Locating potential customers and partners by using our local contacts in the Far East
- Approaching them and introducing your products and services
- Organize meetings with the potential customers which saw interest in your products
- Accompany you during your visits in the Far-East

- Acting as your local agent and assisting you in pre-sales, sales and post-sales activities.
- We can supply local support (Tier 1&2) to your customers.

A short company profile :

Vindia LTD. Israel 2008

Vindia Services Pvt. Ltd 2008 India

Vindia was created in order to provide counseling and solutions for companies seeking to take advantage of the opportunities that the Far East has to offer.

The company was built with the understanding that the global environment requires any company making use of human resources to examine the business opportunities which are available in India.

Vindia's goal is to provide its clients with a wide variety of services and solutions, while making intelligent use of the knowledge, experience, capabilities and tools that have been gathered and constructed over the many years of the company's work in the Far East.

Manager, CEO or entrepreneur – we will gladly be at your service, to advise and understand your needs, quickly and efficiently custom-design your solution, and propel you on your new path, the way only Vindia knows how.

We are glad to be your portal to the Far East – welcome to India.
