THE ISRAEL EXPORT &
INTERNATIONAL COOPERATION INSTITUTE

The Israel Export & International Cooperation Institute is your premier gateway for doing business with Israeli companies. IEIC's expertise in technology and product scouting, joint ventures and strategic alliances with Israeli companies spans more than half of century.

The Water Sector at the Israel Export Institute promotes the Israeli technological innovation and assists companies in penetrating global markets by providing professional information, drafting business plans, creating business partnerships, assisting in finding business opportunities and business contacts, organizing incoming and outgoing delegations, participating in exhibitions and international conferences around the world

and marketing activities with the support of the commercial attaches and professional consultants around the world.

The Water Sector enjoys the support of Israel NeweTech-national program, led by the Ministry of Economy and Industry. With the assistance of this program the Israel Export Institute enables Israel's water industry to remain at the global forefront as the leader and developer of new and most advanced technologies.

For more information, please contact:

Aviv Berkovich

Coordinator, Water Sector

Ministry of Economy and Industry
Foreign Trade Administration

The Foreign Trade Administration (FTA) at the Israeli Ministry of Economy and Industry, manages and supports Israel's international trade and trade policy by promoting trade and exports, initiating and maintaining trade agreements, attracting and facilitating foreign investments and creating strategic cooperation with foreign companies. Through our headquarters in Jerusalem together with over 40 economic and trade missions in key financial centers throughout the world, the FTA promotes Israel's economy worldwide.

Israel's economic and trade missions are at the forefront of the Israeli government's efforts to boost our industries in foreign markets. Our team of highly experienced

economic representatives and business consultants provide a wide range of services to Israeli companies and to the international business community.

Taly Segal-Ordentlich
Consul for Economic Affairs Ministry of
Economy & Industry Embassy of Israel to Brazil

The National Energy and Water Program, Israel NewTech, was established in 2006 under the leadership of the Ministry of Economy and Industry, with the participation of ten government ministries and official organizations. Israel NewTech focuses on water and energy technologies and provides an infrastructure that encourages the development of technologies in this sector. Israel NewTech helps to advance Israel's blossoming Cleantech sector by supporting academia and research, encouraging implementation in the local market, and by helping Israeli companies succeed in the international arena.

For more information on Israel NewTech, please visit: www.israelnewtech.gov.il

Amiad Water Systems Ltd.

Amiad Water Systems is a leading global producer of water filtration solutions. It has developed a range of innovative products providing environmentally-sustainable solutions with low operating costs and a rapid return on investment.

Amiad services the industrial, municipal, irrigation, oil & gas and ballast water markets. Amiad patented products are integrated into core multiple systems
